

Super Hero Dreams!

Goal:

- Let everyone's imagination run rampant.
- Have a station to be more quiet/less active if they need it.
- Thinking of a gadget that could be helpful for yourself is exercising your self-advocacy.

Setup: Everyone should have a piece of paper and access to the crayons.

Rules:

- Everyone writes down what his/her/their superhero name is.
- Next, what power they want to have.
- If they could have a gadget that did anything for them, what would it be? It doesn't have to follow the rules of science. It's super hero magic!
- Give everyone time to think and write this stuff down.
- If people are done, gather round and share with each other!
